EXPLANATORY NOTE

EnDevCo., Inc. (the "Company") is filing this Amendment on Form 10-Q/A (the "Amendment") which amends our Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2008, as initially filed with the Securities and Exchange Commission on August 19, 2008 (the "Initial 10-Q"). This Amendment is being filed to:

- pursuant to the receipt of a Notice of Events of Default and Unmatured Events of Default and a Notice of Acceleration under the GasRock Credit Agreement, revise the treatment of the GasRock note as a current liability on the Company's Consolidated Balance Sheet for June 30, 2008;
- revise the Note 3 to our Financial Statements to disclose the receipt of a Notice of Events of Default and Unmatured Events of Default and a Notice of Acceleration under the GasRock Credit Agreement
- revise the Note 6 to our Financial Statements to reflect the increased current liabilities as a result of the reclassification of the GasRock note;
- revise PART II, Item 3 to disclose the receipt of a Notice of Events of Default and Unmatured Events of Default and a Notice of Acceleration under the GasRock Credit Agreement; and
- revise PART II, Item 6(b) to reference the Form 8-K filed October 24, 2008.

No other changes are being made. Except as described in this Explanatory Note, this Amendment does not modify or update the disclosures in our Initial 10-Q. Therefore, this Amendment does not reflect any other events that occurred after the original August 19, 2008 filing date of the Initial 10-Q. Forward-looking statements in this Amendment have also not been updated from the initial filing of the Initial 10-Q.

Notes to Consolidated Financial Statements
June 30, 2008

NOTE 1 - Summary of Significant Accounting Policies

The accompanying unaudited financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions of Regulation S-B. They do not include all information and footnotes required by generally accepted accounting principles for complete financial statements. However, except as disclosed herein, there has been no material change in the information from the Company's financial statements for the year ended December 31, 2007 included on the Company's Report on Form 10-K. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three-month period ended June 30, 2008 are not necessarily indicative of the results that may be expected for the year ending December 31, 2008.

Basis of Presentation -- EnDevCo, Inc. was originally incorporated under the laws of the State of Texas on November 7, 1980 as Roberts Oil and Gas, Inc. On September 30, 2003, the Company filed a Restated Articles of Incorporation with the Secretary of State of the State of Texas to change its name to EnDevCo, Inc.

Principles of Consolidation -- The consolidated financial statements include the accounts of EnDevCo, Inc. and its subsidiaries, EnDevCo Eureka LLC, Superior Stock Transfer, Inc., EnDevCo Minerals, Inc., EnDevCo Refining Corporation, Africa Energy Group, Inc., Ouachita Gas Company, EnDevCo Colombia S.A. (the Company) and EnDevCo Eureka del Peru S.A.C. All material inter-company balances and transactions have been eliminated in consolidation. All subsidiaries except EnDevCo Eureka LLC and Superior Stock Transfer, Inc. (the Company's transfer agent) were inactive at December 31, 2007.

Cash and cash equivalents -- The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Fair value of financial instruments - Management estimates that the carrying value of financial instruments reported in the financial statements approximates their fair values.

Oil and Gas Properties -- The Company follows the full cost method of accounting for its oil and gas properties. Accordingly, all costs associated with acquisition, exploration and development of oil and gas reserves, including directly related overhead costs, are capitalized. All capitalized costs of oil and gas properties, including the estimated future costs to develop proved reserves, are amortized on the unit-of-production method using estimates of proved reserves. Depletion of oil and gas properties is computed using all capitalized costs and estimated future development and abandonment costs, exclusive of oil and gas properties not yet evaluated, on a unit of production method based on estimated proved reserves.

Depletion expense for the six months ending June 30, 2008 was \$229,189. Depletion expense for the six months ending June 30, 2007 was \$277,931.

Income Taxes -- The Company accounts for income taxes pursuant to the asset and liability method of computing deferred income taxes. Deferred tax assets and liabilities are established for the temporary differences between the financial reporting bases and the tax bases of the Company's assets and liabilities at enacted tax rates expected to be in effect when such amounts are realized or settled. When necessary, valuation allowances are established to reduce deferred tax assets to the amount expected to be realized.

Loss Per Share -- Basic loss per share is computed by dividing the loss by the weighted average number of common shares outstanding.

Diluted loss per share is computed using the weighted average number of common shares and the dilutive securities outstanding. Dilutive securities having an anti-dilutive effect on diluted loss per share are excluded from the calculation.

Use of Estimates -- Management uses estimates and assumptions in preparing financial statements. Those estimates and

assumptions affect the amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could differ from those estimates.

NOTE 2 – Stockholders’ Equity

The Board of Directors passed a Corporate Resolution that reads, "Pursuant to and in accordance with Article 2.13 of the Texas Business Corporation Act of the State of Texas the Company does hereby certify that, pursuant to the authority conferred on the Board of Directors by the Articles of Incorporation of the Corporation, and pursuant and in accordance with Article 2.13 of the Texas Business Corporation Act of the State of Texas, said Board of Directors, pursuant to unanimous written consent dated December 9, 2002, duly adopted a resolution providing for the authorization and issuance of 5,000,000 shares of Series A Convertible Preferred Stock, \$0.01 par value per share (the Series A Preferred Stock)". At the annual shareholders meeting held on October 15, 2004, the shareholders approved an increase in the total number of authorized Series A convertible preferred shares with a \$0.01 par value to 10,000,000. As of April 20, 2008 and 2007 there were 0 and 6,315,020 shares outstanding respectively.

Each share of Series A Preferred Stock outstanding shall at the sole election of the holder be converted into fully paid and non-assessable shares of Common Stock of the Corporation at a conversion rate of 10 shares of Common Stock for each share of Series A Preferred Stock (adjusted for reverse split of 1 for 100 effective March 10, 2008.) The holders of the issued and outstanding shares of Preferred Stock shall have the equivalent of 10 Common Stock votes for each share of Series A Preferred Stock. As a result of all outstanding preferred stock being converted into common stock as of April 20, 2008, there are no outstanding preferred shares.

During the quarter ended June 30, 2008 no shares of preferred stock were issued.

On March 10, 2008, the Company effected a 1 for 100 reverse stock split of its common stock. The Board of Directors' resolution included the following provision:

"RESOLVED, that no fractional shares or less than an even hundred round lot of common stock shall be issued as a result of the Reverse Split".

This provision had the effect of altering the ownership percentage of each shareholder. The outstanding number of common shares on March 10, 2008, was 257,295,087 which would convert to 2,572,951 shares of common stock, except that all shareholders were to receive even one hundred share lots. The rounding up of split shares to one hundred share lots resulted in an additional 487,192 shares of common stock being issued, with a fair value of \$2,435,960 (March 11, 2008, opening trading value \$5.00). The fair value of the extra common shares issued has been recognized as a current period expense. The weighted average number of common shares outstanding reflected in the statements of operations and the loss per share have both been restated to reflect the reverse stock split.

NOTE 3 – Note Payable – GASROCK CAPITAL LLC

The Company entered into an advancing term credit agreement for \$30,000,000 on April 13, 2006 through its subsidiary EnDevCo Eureka, LLC with GasRock Capital, LLC to fund the purchase of the Short Junction Field in Cleveland County Oklahoma. This agreement was increased to \$50,000,000 on April 2, 2007. The balance at June 30, 2008 was \$13,687,652, net of debt discount of \$102,695, and the Company paid interest of \$506,361 during the quarter ended June 30, 2008. The note is secured by all of EnDevCo Eureka's assets and certain personal assets owned by Chris A. Dittmar.

On April 9, 2008, GasRock delivered to the Company a Notice of Events of Default and Unmatured Events of Default ("Default Notice") under the Credit Agreement. Due to these claimed Events of Default, interest under the Credit Agreement began accruing at the Default Rate of 15% and 100% of EnDevCo's Net Revenues were applied to Debt Service and other Obligations as of April 9, 2008. On April 16, 2008, GasRock delivered to the Company a Notice of Acceleration ("Acceleration Notice") under the Notes due to the continuing claimed Events of Default under the Credit Agreement. The Acceleration Notice declared the amounts due under the Note to be accelerated and due and owing in full as of April 16, 2008.

NOTE 4 – Accounts Payable, Payable to Related Party

On June 5, 2007, EnDevCo entered into a farm-out agreement with an effective date of September 5, 2007, with Alliance Energy Corporation (AEC), a related party, whereby AEC paid all costs to drill an initial well (the WSJU #109StH, which is in production at the time of filing this report) and up to three future development wells. On June 30, 2008, the parties agreed to terminate the farm-out agreement thereby cancelling AEC's right to drill three future wells and transferring 100 percent ownership of the WSJU #109StH well to EnDevCo effective March 1, 2008. In consideration, EnDevCo agreed to assume approximately \$5.7 million in liabilities resulting from the drilling of the WSJU #109StH well, pending a full audit of the well costs.

NOTE 5 – Note Payable – Long Term – Related Party

The Company has three long term notes payable totaling \$1,813,224. All three notes accrue interest at the LIBOR monthly average coupon rate (2.46%) at June 30, 2008. The first two notes are in the amounts of \$363,224 and \$950,000 respectively and are due and payable December 31, 2009. The third note is in the amount of \$500,000 and is due and payable June 30, 2009. The maker of this note consists of the following related parties managed by Campbell Evans: OCE Partners, LLC, and OCE Interests, LLC; and OCE Advisors, LLC, managed by Chris A. Dittmar. All notes are unsecured.

NOTE 6 – Going Concern

The Company has reported operating losses aggregating \$7,428,317 for the two (2) year period ended December 31, 2007 and an additional \$7,938,874 of loss was recognized for the six month period ended June 30, 2008. At June 30, 2008, the consolidated balance sheet reported a working capital deficit of \$31,310,518. The Company must raise significant amounts of cash to pay its current liabilities and to provide investment funds to continue development of its oil and gas leases. There can be no assurance the Company's management will be able to secure funding.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This report, including Management's Discussion and Analysis of Financial Condition and Results of Operations, includes certain forward-looking statements. The forward-looking statements reflect the Company's expectations, objectives and goals with respect to future events and financial performance. They are based on assumptions and estimates, which the Company believes are reasonable. However, actual results could differ materially from anticipated results. Important factors that may impact actual results include, but are not limited to, commodity prices, political developments, market and economic conditions, industry competition, the weather, changes in financial markets and changing legislation and regulations. The forward-looking statements contained in this report are intended to qualify for the safe harbor provisions of Section 21E of the Securities Exchange Act of 1934, as amended. The notes to Consolidated Financial Statements sections contain information that is pertinent to the following analysis.

GENERAL COMMENTS ON BUSINESS PLAN

EnDevCo, Inc., a shortened version of the "Energy Development Company", establishes an identity that is consistent with the business development activities currently underway in the Corporation. The Company is actively negotiating to participate in several oil and gas projects both domestically and internationally within the traditional industry scope of oil and gas exploration and production. These activities include production of oil and gas from interests held by the Company in the United States and Colombia. The Company is also investigating investment in the development of new technologies for the enhancement of oil and gas production and the utilization of that technology to further acquire oil and gas production.

OIL AND GAS EXPLORATION AND DEVELOPMENT

The Company is pursuing oil and gas exploration and development opportunities in both domestic and international venues. Domestically, the Company has secured certain development rights onshore and offshore in the Gulf of Mexico that will provide it with the opportunity to participate in the drilling of low risk development wells. As a result of recently acquired 3D seismic data that has been integrated with previously known geological and engineering data, several low risk development drilling opportunities have been identified. Participation in these types of relatively low risk and low cost wells will provide near term cash flow to support the activities of the Company.

Internationally, the Company has identified several other exploration projects that carry significant upside potential (although at higher risk). The Company currently holds an agreement for certain exploration rights in the Rio Magdalena Valley of Colombia. Our exploration teams are also evaluating other opportunities located in Canada, South America, North Africa and the Middle East.

Gulf of Mexico - The Company has entered into a farm-in agreement with BT Operating Co. wherein the Company will participate in the drilling and completion of four wells in Eugene Island Block 294 and/or Chandeleur Block 14 to earn a 50% working interest in each block prior to December 31, 2009.

The Company has also entered into a farm-in agreement with Mariner Energy, Inc. which grants the Company an assignment of their operating rights down to a depth of 12,800 feet upon the initial commercial completion of the OC sand in East Cameron Block 71. Open Choke Exploration, LLC has a 67% interest in the farm-in agreement and the Company has the remaining 33% interest.

The Company has designated Open Choke as the project Operator who will drill the East Cameron #71-9 well and attempt to complete the OC sand. In the event that this well is not successful, EnDevCo has the right to drill a replacement well to test the OC sand within a reasonable time frame.

Pursuant to a joint participation agreement between EnDevCo and Open Choke, the Company will have access to the production platforms on East Cameron Block 71/72 Field which are equipped with all necessary production facilities and pipelines to support increased oil and gas production resulting from drilling and completing new wells.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (cont)

Upper Magdalena River Region, Colombia - On September 25, 2003, the Company purchased from Harvest Production Company, LLC an option to participate in the acquisition and processing of 101 kilometers of 2D seismic, and a continuing option to participate on a joint venture basis in wells to be drilled after the interpretation of that seismic on their Rio Magdalena Association Contract comprising 58,546 hectares (144,600 acres) situated in the Upper Magdalena River region of Colombia. On June 25, 2005 the Company acquired an option from Harvest Production Company, LLC to purchase 50% of Seller's interest in the assets covered by the September 25, 2003 option, proven undeveloped reserves in the block and Seller's proprietary data previously acquired over the lease acreage described above, in consideration of the Company securing financing for development. This option expires December 31, 2009.

Block XXIV, Peru - Following an extensive bidding process, a consortium including EnDevCo was awarded the exclusive concession to develop the Block XXIV prospect area located in northwest Peru. EnDevCo owns 20% of the consortium. Covering more than 276 thousand acres, the block contains both onshore and offshore prospects. The area is bracketed by recent discoveries to the immediate north (Olympic) and south (Olympic and Petrotech). The primary target horizon for the off shore area is the naturally fractured Amotape formation of Paleozoic age (quartzites, slates, etc.). This target formation boasts similar characteristics to those that have produced oil in the nearby Portachuelo Oilfield and, more recently, the offshore San Pedro discovery. The reinterpretation of well logs using new technology indicates pay in target formation. Northwest Peru has solid infrastructure and substantial power demand, creating a ready-market for gas. For EnDevCo, the region represents an excellent opportunity for an integrated gas-to-power project.

Cleveland County, Oklahoma - On April 13, 2006, the Company acquired a 98.712% working interest with a 70.085% net revenue interest in the West Short Junction Unit and a 100% working interest with a 71% net revenue interest in the Central Short Junction Unit hereinafter referred to as the ("Short Junction Field and/or the Field") located in Oklahoma City, Oklahoma through its subsidiary EnDevCo Eureka, LLC for a purchase price of \$11.5 million. EnDevCo Eureka, LLC is owned 55% by its parent EnDevCo, Inc. and 45% by private investors who are related parties. These investors contributed \$3.0 million in equity to enable EnDevCo to consummate the transaction. EnDevCo Eureka, LLC, managed by EnDevCo personnel, is the Operator for the Field which has an acquisition date of January 01, 2006.

Project financing was provided by GasRock Capital, LLC of Houston, Texas and now takes the form of a \$50.0 million credit facility. GasRock Capital provides project based mezzanine debt financing to the oil and gas industry by backing proven management teams that identify high quality exploitation projects like the Short Junction Field.

The 12,000 acre fully unitized Field currently consists of 24 oil wells and 2 gas wells, 4 central collection and metering stages and 4 salt water disposal wells. The Field is currently producing 261 barrels of oil equivalent (BOE) per day comprised of 205 barrels of oil and 336 Mcf of gas which represents over a 300% production increase from April 13, 2006 to June 30, 2008.

Since acquiring the Field, the Company has methodically performed maintenance activities on all oil wells to include improved chemical and hot oil treatments; new pump jacks, existing pump jack re-alignment, bearing and rod replacement, beam compressor installation and pipeline integrity testing and cleanout. EnDevCo has also installed new pumps, a new water knockout and two new heater treaters for improved oil separation at the central collection and metering stages and terminated the re-injection of water into the Hunton reservoir by re-piping and installing a new salt water disposal well.

The Field purchase included full ownership rights to a field wide gas pipeline and gathering system that offers two independent taps to the interstate gas transmission system.

Short Junction Field was originally developed by Conoco using vertical wells drilled on a 40 acre well spacing, resulting in oil and gas production from 270 active wells within the 12,000 acre leasehold. The Field currently contains 34 unplugged production well bores of which 26 are currently active.

Historically the primary zone of interest has remained the Hunton formation for oil production. However, above the Hunton, the Bartlesville, Prue, Red Fork and Skinner Sandstones along with the Pink Lime zones are present and most are indicated as productive based on well log analysis.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (cont)

Current bottom hole pressures recently measured in the Hunton indicate that formation pressure today is essentially the same as when the Field was originally placed on production. This unique characteristic occurs as a result of the fact that Conoco instituted a water flood pressure maintenance program in the early stages of developing the field. As a result of this pressure maintenance, the original gas cap in the Hunton reservoir has never been produced.

EnDevCo plans to implement a 3D seismic program over the leasehold in order to pursue an aggressive horizontal drilling program in the Hunton formation to increase oil and gas production from that reservoir and to develop identified shallow gas sand reservoirs indicated on the subsurface well control.

ENERGY TECHNOLOGY DEVELOPMENT

Development and implementation of new energy technologies will become a key new business focus for the Company. The identification of and early participation in the implementation of these types of technologies opens several avenues for potential revenue generation and profits. In some instances, the technology can be manufactured and sold to end users once the market accepts the technology. In other instances, the technology might provide a unique competitive advantage that can be successfully leveraged by the Company in the acquisition and development of existing energy projects. Initially, the Company will limit its scope of investigation to those technologies that directly compliment the oil and gas, and power industries.

POWER GENERATION

EnDevCo's management team has extensive experience and expertise in the area of power plant development, operations and commercial management. The Company intends to leverage these capabilities by developing integrated gas-to-power and greenfield development projects in markets that create additional value through the gas-power delivery option.

RESULTS OF OPERATIONS

This report, including Management's Discussion and Analysis of Financial Condition and Results of Operations, includes certain forward-looking statements. The forward-looking statements reflect the Company's expectations, objectives and goals with respect to future events and financial performance. They are based on assumptions and estimates, which the Company believes are reasonable. However, actual results could differ materially from anticipated results. Important factors that may impact actual results include, but are not limited to, commodity prices, political developments, market and economic conditions, industry competition, the weather, changes in financial markets and changing legislation and regulations. The forward-looking statements contained in this report are intended to qualify for the safe harbor provisions of Section 21E of the Securities Exchange Act of 1934, as amended. The notes to Consolidated Financial Statements sections contain information that is pertinent to the following analysis.

Analysis of Six Months Comparison

Line 1 - Revenue increased overall \$831,531 during 2008. This is due to production from the Company's first side track horizontal well.

Line 2 - Costs of revenues decreased overall \$48,432 during 2008 due to lower LOE as a result of the Company's shift in focus away reworking the existing Short Junction vertical wells.

Line 3 - Total costs and expenses increased overall \$11,903 during 2008. The detail explaining this decrease is shown on lines 4 and 6 below.

Line 4 - This decrease of \$18,472 is due to reduced consulting fees and engineering costs.

Line 6 - This is due to a timing difference.

Line 7 - Total other income and expenses increased overall by \$6,732,746 in expenses during 2008. The detail explaining this increase is shown on lines 8 through 11 below.

Line 8 - There was other income of \$200,000 due to the reduction of accrued interest as a result of the settlement of the Basic Energy Services lawsuit.

Line 9 - The acquisition financing for the Short Junction field required that certain hedges be put in place during the term of the loan. These hedges are marked to market every reporting period, the outcome of which resulted in increased losses of \$3,966,457 during 2008 due to the sharp increase in the price of oil.

Line 10 - Interest expense increased by \$512,201 during 2008 due to interest on the Short Junction Field.

Line 11 - A one time charge of \$2,435,960 was taken for shares issued to shareholders following the reverse split of March 10, 2008 to round up each shareholder's position to a full lot.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (cont)

Directors and Officers Compensation

The Company currently has nominal cash reserves and cash flow from operations. Until such time as the financial condition of the Company improves, the Company's Directors and Officers have agreed to have their salaries accrued.

Project Development Guidelines

In recognition of the status of current financial resources available to the Company, executive management is committed to identifying and implementing projects that can be primarily project financed. This strategy reduces financial risk to the Company, but necessarily adds additional lead time before projects can be secured and announced to the shareholders.

There are no assurances, however, that the Company will be able to identify and implement financing to develop its projects or that it will be able to generate sufficient revenue growth and improvements in working capital.

The Company intends to raise working capital through the sale of its Common stock. No assurance can be given that funds will be available from any source when needed by the Company or, if available upon terms and conditions reasonably acceptable to the Company.

The Company is exploring debt and equity financing.

ITEM 3. CONTROLS AND PROCEDURES

As required by Rule 13a-15(b), Company's executive management, including the Chief Executive Officer, Chief Operating Officer and Chief Financial Officer, conducted an evaluation as of the end of the period covered by this report, of the effectiveness of the Company's disclosure controls and procedures as defined in Exchange Act Rule 13a-15(e). Based on that evaluation, the Chief Executive Officer, Chief Operating Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this report. As required by Rule 13a-15(d), the Company's executive management, including the Chief Executive Officer, Chief Operating Officer and Chief Financial Officer, also conducted an evaluation of the Company's internal control over financial reporting to determine whether any changes occurred during the period covered by this report that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting. Based on that evaluation, there has been no such change during the period covered by this report.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Legal Proceedings for the Quarter ended June 30, 2008:

As of June 1, 2007, the law firm of Phillips & Akers, P.C. ("A&P"), are the attorneys of record for the Company in a case styled: Cause No: 2006-34662; Farzad Askari v. EnDevCo, Inc.

Mr. Askari filed a breach of contract case claiming the Company (the Defendant) had not paid Mr. Askari (the Plaintiff) for work he did as an alleged consultant in 2002 for John W. Adair and Adair International Oil & Gas, Inc. The Company believed that Mr. Askari was never a consultant for the Company and never performed any work for the Company and therefore was not entitled to receive any compensation from the Company.

The case went to trial and the jury's verdict was that Mr. Askari was not entitled to any compensation and that judgment was entered on January 11, 2008. All of Mr. Askari's post trial motions to date have been unsuccessful; however, he has filed notice of appeal.

As of October 10, 2007, the law firm of Looney, Nichols & Johnson, P.L.L.C. ("LN&J"), are the attorneys of record for the Company in a case styled: Cause No: CJ 07 1859 L; Basic Energy Services, LP v. EnDevCo Eureka, LLC. et al.

Basic Energy Services has filed a breach of contract case claiming EnDevCo Eureka, LLC (the Defendant) has not paid for goods and services that are in dispute between the parties. Following a review of all disputed invoices, the Company signed a settlement agreement on July 07, 2008 with the Plaintiff.

As of May 15, 2008, the law firm of Phillips & Akers, P.C. ("A&P") and J. John Hager, are the attorneys of record for the Company in a case styled: Cause No: CIV-08-0395-HE; KAL Drilling Inc. v. EnDevCo Eureka, LLC. et al.

KAL Drilling has filed a breach of contract case claiming EnDevCo Eureka, LLC (the Defendant) has not paid for goods and services that are in dispute between the parties. The Company has denied all of Plaintiff's allegations and filed a counterclaim against the Plaintiff on May 15, 2008 for breach of contract, misrepresentations, fraud, negligence and gross negligence.

The Company is a party to various claims, but is not a party to any other litigation at this time. Although no assurances can be given, the Company believes based on its experience to date, that the ultimate resolution of such items, individually or in the aggregate, would not have a material adverse impact on the Company's financial position or results of operations.

ITEM 2. CHANGES IN SECURITIES

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

On April 9, 2008, GasRock delivered to the Company a Notice of Events of Default and Unmatured Events of Default ("Default Notice") under the Credit Agreement. Due to these claimed Events of Default, interest under the Credit Agreement began accruing at the Default Rate of 15% and 100% of EnDevCo's Net Revenues were applied to Debt Service and other Obligations as of April 9, 2008. On April 16, 2008, GasRock delivered to the Company a Notice of Acceleration ("Acceleration Notice") under the Notes due to the continuing claimed Events of Default under the Credit Agreement. The Acceleration Notice declared the amounts due under the Note to be accelerated and due and owing in full as of April 16, 2008.
